

HOA Services Marketplace Product Requirements Document (Phase 1)

1. Overview

The Services Marketplace enables residents within an HOA community to offer and book services directly through the app. It supports service listings, booking requests, in-app payments, and mutual reviews.

2. Goals

Primary Goals

- Enable residents to offer services within their HOA
- Allow residents to book services with secure payments
- Facilitate trusted transactions within the community
- Generate platform revenue via service fees

Secondary Goals

- Increase engagement
- Encourage neighbor collaboration
- Enable future recurring bookings

3. Non-Goals (Phase 1)

- Recurring bookings
- Instant booking
- Provider calendars
- External providers
- Quote-based services

4. Marketplace Model

Resident-only marketplace with in-app booking, payments, and reviews.

5. Users

Service Providers

- Create listings
- Accept/decline bookings
- Complete jobs
- Receive payments

Service Requesters

- Browse services
- Request bookings
- Pay
- Leave reviews

Admin

- Approve listings
- Moderate
- Handle disputes

6. Geographic Scope

HOA-only visibility and transactions.

7. Service Listings

Listings require admin approval. Pricing types: Fixed and Hourly.

8. Booking Model

Request-based booking flow: request → accept/decline → payment → completion.

9. Payment Model

Stripe Connect used. 20% platform fee. Customer pays Stripe fees.

10. Cancellation Policy

- >24 hours: full refund
- <24 hours: 50% refund
- No-show: 100% refund + admin alert

11. Reviews

Mutual reviews between provider and customer.
